First [Katie Holmes](#) was [afraid of the dark](#). Now she's afraid of losing the man of her dreams.

Fortunately, that's familiar acting territory for her. Making things awkward for her ex ([Josh Duhamel](#)) and his fiancée ([Anna Paquin](#)) in the days leading up to their wedding, Katie uses *The Romantics* to tap into everything she learned back in Capeside—longing facial expressions, awkward glances, stuttered confessions of the heart, you name it.

It's good to see the *Dawson's Creek*-style Katie again! And with *Glee* fave [Dianna Agron](#), [Adam Brody](#) and [Malin Akerman](#), could *The Romantics* be Katie's comeback? What do you think?
